MEMORANDUM FOR: Chairman, Security Committee

STATINTL

FROM : 
Special Assistant to the D/DCI/IC

SUBJECT : Protection of DCID 1/7

1. As I reported at our FOI meeting on the DCIDs the other day, I am strongly opposed to releasing DCID 1/7 since, in my view, this would risk putting an effective tool into the hands of someone wishing to fabricate an "authentic" intelligence document. This danger apparently had not been considered when the DCID was declassified.

2. As I understand it, the argument for declassifying DCID 1/7 was that it did not qualify for protection under E.O. 11652. (See attached USIB record of coordination.) A successful fabrication or forgery operation against the U.S. could (a) adversely affect our relations with a foreign government, (b) damage national security, and/or (c) weaken our ability to keep U.S. policymakers informed on vital issues. All of these potential dangers support a classification of at least Confidential.

3. During our discussions with  on handling DCID 1/7 under FOIA, he advised us to think about reclassifying the directive if our concerns were strong enough. Request that the Security Committee re-examine the need for a security classification on DCID 1/7 and advise me of your conclusions. In the meantime, denial under FOIA based on sources and methods appears to offer our only recourse, albeit a weak one.

SUBJECT : DCID No. 1/7, "Control of Dissemination
of Foreign Intelligence"

REFERENCE : USIB-D-5.1/41, 17 July 1975

1. Following coordination with USIB, the enclosed DCID 1/7 was approved by the Director of Central Intelligence on 7 August 1975 with an effective date of 5 October 1975. The delayed implementation is to provide sufficient time for agencies and departments to prepare for new provisions of the DCID.

2. Copies of this directive will also be printed in the established DCID format and disseminated at an early date to holders of the "Intelligence Directives Handbook."

Remarks:

All USIB agency members have concurred in the attached revision of DCID No. 1/7, "Control of Dissemination of Intelligence." The CIA, State and DIA members concurred with the comment that the DCID be issued as unclassified instead of confidential. The acting CIA member also commented that the new markings and procedures should not take effect until two months after the DCI approves and issues the DCID. The delayed implementation would provide sufficient time for agencies and departments to prepare for new provisions of the DCID. The Chairman of the Security Committee agrees that the DCID should be issued as unclassified and has no objection to the delayed implementation date.

If you approve, DCID No. 1/7 will be issued as unclassified with an effective date of 5 October 1975; it will be given preliminary DCID distribution and will also be printed in the established DCID format for dissemination to holders of the Intelligence Directives Handbook.

a. The DCID should be unclassified instead of confidential.
Reason: The Directive does not meet the conditions requiring
classification. A DCID that is unclassified also
would increase its access and utility.
